

DJ Safety Chute Release Cable

Description

DJ Safety Chute Release Cable (*DJ852200*)

DJ Safety produces this handy universal chute release cable and lever that will suit any chute and vehicle. Made from a solid core wire with a protective outer cover and utilising a positive threaded bulkhead for mounting.

The lever is a curved handle with a unique attachment which allows the lever to be used either way depending on the direction of the cable.

Cable is 13ft or 4 metres long and can be shortened to the desired length.
