

Heat Shroud Sleeve

Short Description

Heat Shroud Sleeve

Description

Heat Shroud is made from a high temperature rated glass fibre fabric with an aluminised outer facing. Same as Heat Sheath

but with the added convenience of hook & loop closure design along the open edges. Without the need of removing one end

of connected wires, cables and hoses, simply wrap Heat Shroud around whatever needs protection and close edges.

- Convenient hook & loop designed edges
- Withstands 500°F direct continuous/2000°F radiant heat
- No need to remove wires and hoses
- Easily trimmed to length
- Fireproof
