

Holley 4.5-9psi Fuel Pressure Regulator

Short Description

Holley 4.5-9psi Fuel Pressure Regulator

Description

These adjustable fuel pressure regulators from Holley can be adjusted from 4-1/2 to 9 PSI to regulate fuel pressure for various

types of carburetors. Fuel pump regulator works well with Holley high performance fuel pumps. Use one fuel regulator per

fuel bowl for high flow applications.

This fuel pressure regulator has a 3/8" NPT gauge port.
