## Speedflow Hoses - 100 Series

**Description** 

Size	Part No	Inside Diameter	Outside Diameter	Operating Pressure	Burst Pressure	Bend Radius
	5.56mm	11.13mm	69bar	420bar	50.80mm	
-6	100-06	0.344in /	0.547in /	1000psi /	6000psi /	2.50in /
		8.73mm	13.89mm	69bar	420bar	63.50mm
-8	100-08	0.438in /	0.641in /	1000psi /	5000psi /	3.50in /
		11.12mm	16.28mm	69bar	350bar	88.90mm
-10	100-10	0.562in /	0.797in /	1000psi /	5000psi /	4.00in /
		14.27mm	20.24mm	69bar	350bar	101.60mn
-12	100-12	0.688in /	0.928in /	1000psi /	3750psi /	4.50in /
		17.47mm	23.82mm	69bar	263bar	114.30mn
-16	100-16	0.875in /	1.156in /	750psi /	2500psi /	5.50in /
		22.22mm	29.36mm	52bar	175bar	139.70mn
-20	100-20	1.125in /	1.437in /	500psi /	2000psi /	8.00in /
		28.70mm	36.49mm	35bar	138bar	203.30mn

Speedflow 100 series hose is the premier stainless steel nitrile hose. Manufactured in the USA specifically for Speedflow Products, this hose has been used by motorsport prefessionals all over the world! Designed for use with the wide variety of 100 series hose ends to provide essential protection and resistance to high pressure, temperature and chafing. It is constructed of a seamless synthetic nitrile innner tube with an integral stainless steel braid and a high tensile stainless steel outer braid. Speedflows 100 series hose has the higest corrosion and fire resistance of any other nitrile braided hose on the market.

Temperature range: -46°C (-50.8°F) to 150°C (302°F).
